

Sciences - Materials
Second Level SCN 2-15a

By contributing to investigations into familiar changes in substances to produce other substances, I can describe how their characteristics have changed.

Sciences - Materials
Second Level SCN 2-16a

I have participated in practical activities to separate simple mixtures of substances and can relate my findings to my everyday experience.

Sciences - Materials
Second Level SCN 2-16b

By investigating common conditions that increase the amount of substance that will dissolve or the speed of dissolving, I can relate my findings to the world around me.

Sciences - Materials
Second Level SCN 2-17a

Having explored the substances that make up Earth's surface, I can compare some of their characteristics and uses.

Sciences - Materials
Second Level SCN 2-18a

I have investigated different water samples from the environment and explored methods that can be used to clean and conserve water and I am aware of the properties and uses of water.

Sciences - Materials
Second Level SCN 2-19a

I have collaborated in activities which safely demonstrate simple chemical reactions using everyday chemicals. I can show an appreciation of a chemical reaction as being a change in which different materials are made.
