

Technologies - Business contexts for developing technological skills and knowledge

Fourth Level TCH 4-05a

By discussing the business, environmental, ethical and social implications of computer technology, I can begin to gain an understanding of the need for sustainability and accessibility.

Technologies - Business contexts for developing technological skills and knowledge

Fourth Level TCH 4-06a

To facilitate the transfer of skills between classroom and the world of work, I can select and use specialist equipment and appropriate software to develop administrative and management skills.

Technologies - Business contexts for developing technological skills and knowledge

Fourth Level TCH 4-07a

Whilst working in a simulated or real workplace, I can select and use appropriate software to carry out a range of tasks which support business and entrepreneurial activities.

Technologies - Business contexts for developing technological skills and knowledge

Fourth Level TCH 4-07b

Whilst working in a simulated or real workplace, I can examine my work environment, considering office layout, ergonomic factors, and health and safety legislation.
